About Aubrey

Aubrey Rothrock is the practice group leader of our Public Policy Practice. He has extensive experience in managing all aspects of government relations initiatives for large domestic and multinational corporations.

His practice includes monitoring and analyzing legislative and regulatory developments; drafting federal legislation, amendments and congressional testimony; and working directly with members of Congress, their staffs, and the Administration to enact or oppose pending legislation.

Aubrey has been actively involved in the formation of numerous private-sector coalitions to reduce federal tax burdens and mitigate the impact of regulations in the areas of health benefits, financial services, environment, transportation and trade.

Aubrey also counsels companies with cutting-edge, socially beneficial technologies, increasing their exposure to Congress and the relevant federal agencies and obtaining public funding for research and development activities.
