About Xiaomei

Xiaomei Cai is an associate in the Intellectual Property & Technology practice, representing clients from a wide range of industries in intellectual property disputes, including Hatch-Waxman litigation, International Trade Commission (ITC) Section 337 proceedings, Wi-Fi technology, biologics litigation, chemistry and semiconductors, focusing on pharmaceutical and biotechnology.

Xiaomei's practice encompasses all facets of complex patent litigation, including pre-suit investigation and counseling, discovery, claim construction and *Markman* hearings, trials, post-trial, injunction proceedings and appeals, before federal courts. She also represents clients in regulatory proceedings such as *inter partes* reviews before the Patent Trial Appeal Board (PTAB), as well as in cross-border enforcement actions such as ITC Section 337 investigations. Xiaomei combines scientific acumen with a keen understanding of the legal issues that surround bringing new technology products and innovative services to the market.

She also has substantial experience handling China-related intellectual property matters and cross-border IP disputes spanning chemical, pharmaceutical, biotechnology and consumer electronics. For example, Xiaomei has:

- Represented a leading Chinese polymer manufacturer in an ITC 337 investigation
- Represented a biopharmaceutical company in a patent infringement action against online retailers of bioactive and small molecules compounds into the US
- Defending a China-based manufacturer of HDMI products in cross-border litigation involving claim of trade secret misappropriation
- Defending a China-based manufacturer of expresso machine products in a litigation involving claim of trademark infringement
- Advised a leading Chinese food and flavoring company relating to the analysis of patent noninfringement of equipment and processes for soy source manufacturing
- Counseled a Chinese pharmaceutical company relating to its defense against patent infringement claims in connection with its Abbreviated New Drug Application (ANDA) application
