

We recently served as bond counsel for a major redevelopment project at Cincinnati/Northern Kentucky International Airport. We represented Kenton County Airport Board in connection with two bond issuances, accounting for more than US\$136 million of the airport's estimated US\$345 million capital improvement program. Financing will be used toward building a consolidated rental car facility and ground transportation center, in addition to providing funds for the renovation and construction of existing roadways, facilities and other infrastructure. This extensive project will provide immediate accessibility to the airport, save time for travelers and reduce carbon emissions by eliminating the need for shuttle buses to transport passengers to and from the airport's existing remote rental car facilities. The project is expected to be completed in early 2021.

The firm team included [Alethia N. Nancoo](#), [Johnny W. Hutchinson](#), [Catherine Z. Romanchek](#), [Niyala A. Harrison](#) and [Alexis A. Baker](#).
